

Product information

No. 62220000

KAJO-Lebensmittelfett LMF-2

KAJO-Food Industry Grease LMF 2 is a light, high quality aluminium complex lubrication grease based on medical white oils.

Special characteristics:

- oxidation stable
- outstanding work resistance
- water resistant
- good anti-corrosion properties
- good adhesiveness

Practical advantages :

KAJO-Food Industry Grease LMF 2 is suitable for lubrication of roller and friction bearings of

machines operating in the food, luxury food, feeding stuff and packing industry.

KAJO-Food Industry Grease LMF 2 is to be applied where a contact between lubricating grease and food cannot be excluded or is technically not avoidable

Excess lubrication causing an unnecessary contact with food, are to be avoided.

KAJO-Food Industry Grease LMF 2 has the H1-approval of the NSF (National Sanitary Foundation). NSF-registration-no. 127969.

Typical characteristics:

Properties	Value	Unit	Standard
NLGI class	2		DIN 5 1818
Worked penetration	265 – 295	0,1 mm	ASTM D 217
Dropping point	>250	°C	IP 396
Water resistance 3 h / +90° C	1	evaluation stage	DIN 51 807-1
Copper corrosion 24 h/100 °C	1 A	evaluation stage	DIN-51 811
Corrosion protection (Emcor)	0/0	Corrosion degree	DIN 51 802
Operating temperature range short periods	-20 to +120 up to +140	°C	
Marking	K 2 K-20		DIN 51 502

Version 4
